Mortar plasticizer Polycarboxylate Based Superplasticizer

Product introduction

Mortar plasticizer Polycarboxylate Based Superplasticizer is a new generation of environmentally-friendly mortar and concrete special high-efficiency water reducing agent based on new synthetic technology. Its main component is polycarboxylate, which uses a fluid powder made by special drying technology.

Application scenario

Concrete or mortar,

Mortar plasticizer Polycarboxylate Based Superplasticizer has good adaptability to cement varieties, mainly used in cement-based non-shrinkage grouting, CA mortar, repair mortar, cement-based self-leveling mortar, non-metal wear-resistant floor mortar, waterproof mortar and external moisturizing mortar. Various dry mix mortars.

Instructions

Add Mortar plasticizer Polycarboxylate Based Superplasticizer to the concrete or mortar in proportion and mix well.
